GENERAL INFORMATION

GRIFFIN 400 is a liquid foliar fertilizer containing manganese, zinc and iron. It is formulated to correct and prevent deficiencies in citrus. Urea is included to aid in uptake.

Foliar Nutritional Spray - GRIFFIN 400 may be applied by air or with all types of ground spraying equipment.

Compatibility - GRIFFIN 400 is compatible with most common foliar pesticides. USER ASSUMES FULL RESPONSIBILITY to ensure compatibility when tank mixing with other products.

SUGGESTED USES - CITRUS CROPS

Mature Citrus - Apply 2 - 4 quarts per acre.

Young Trees - Mix 2 - 4 quarts per one hundred gallons of spray solution and apply to runoff.
